EDUCATION

University of Tampa

Bachelor of Science in Computer Science and Psychology

May, 2025

Tampa, FL

WORK EXPERIENCE

Hollis Hospitality Group

Technology Consultant

5/1/2025 - Present

Portsmouth, NH

- Led technology assessments for a multi-location hospitality group, analyzing POS, SaaS, and integration options to improve customer experience and streamline operations.
- Conducted discovery sessions with leadership to understand business needs, mapped requirements to technical solutions, and created implementation roadmaps.
- Provided guidance on system integrations, troubleshooting, and long-term scalability planning.

Independent Contractor

Full-Stack Web Developer

1/1/2025 - Present

Remote

- Designed and deployed client-facing web applications using React, Next.js, Sanity.io, and REST APIs.
- Guided non-technical clients through onboarding and CMS adoption, enabling self-service content updates.
- Conducted regular website testing and debugging to troubleshoot issues and optimize loading times.

Glazer Children's Museum

Software Engineer Intern

1/1/2024 - 5/1/2024

Tampa, FL

- Developed a Django/MySQL application to manage educational programs, collaborating closely with stakeholders in an Agile environment.
- Managed project tasks timelines, working with the team to prioritize and refine requirements.

University of Tampa

Research Assistant

8/1/2022 - 8/1/2024

Tampa, FL

- Contributed to the development and deployment of a Virtual Reality game focused on educating users about the UN's Convention of the Rights of the Child.
- Utilized Unity to develop for MetaQuest and Blender for 3D modeling.
- Developed solutions to project risks and issues, meeting quality and timeline goals.

PROJECTS & RESEARCH

NP-Complete Escape Room

[View Project](#)

- Developed an educational web app that simplified complex CS concepts for non-technical users. Improved average user comprehension confidence by 120%.

ResuBuild

[View Project](#)

- Built a SaaS-style resume builder with API integrations, authentication, and persistent storage, supporting real-time previews and AI-driven content generation.

Masda Gym Liverpool

[View Project](#)

- Built a fast, CMS-driven site for a Liverpool gym, enabling non-technical staff to manage events, menu/pricing, and sponsors, with live Instagram and a simple updates workflow.

Personal ChatBot

[View Project](#)

- Developed and deployed a personalized AI chatbot for my website using the OpenAI API, Pinecone vector database, and a Node.js/Express backend
